## GOLDEN WEDDING AT COLEMAN

(From The New Glasgow Free Lance)

COLEMAN, Alta., Jan. 8.—Fifty years of married life of Mr. and Mrs. Andrew W. H. McLeod were marked by members of Minerva Chapter, Order of the Eastern Star, and other local organizations, the Star chapter, of which Mrs. McLeod is a past worthy matron, presenting them with a beautiful chime clock, and the Ladies' Missionary Society of St. Paul's United church with an electric table lamp.

They were married in Westville, Nova Scotia, on Dec. 31, 1884, by the late Rev. Robert Cumming, D.D., at the home of the bride's mother, Mrs. Alexander Fraser, Mr. Fraser having passed on some years previously. Coming west in 1898, they first settled at Rossland, B.C.; then they lived at Michel, B.C., for five years and at Homers one year, when it was a very active point for C.P.R. coal mining.

They came to Coleman in 1900 and Mr. McLeod during that time was first with the International Coal Co., and later with McGillivray Coal Co., being storekeeper with the latter company at the time of his retirement.

Their three sons are Roderick, of Merco, Alberta; Herdman, President of McLeod River Coal Co., Merco, and Fraser, provincial boiler inspector, of Lethbridge. They have twenty-two grandchildren and one great-grandchild.

Mr. McLeod is a past master of Western Star Lodge A.F. & A.M., Westville, N.S., in which he has been 50 years membership. Mrs. McLeod, who before her marriage was an operator for the Western Union Telegraph Co. in Halifax, Truro and Westville, has taken a very active part in local affairs. Included among her activities are the Women's Institute, of which she is a past president, member of the relief committee, local president of the Red Cross, president of the Ladies' Aid and Missionary Societies of St. Paul's church, and she also served as a school trustee several years ago.

Despite her more than three score years, she still maintains an active interest in these organizations, and has seen Coleman progress from an early mining camp to quite a substantial town served by public utilities such as water and light services.

Her maiden name was Marjory Jane Fraser, daughter of Alexander Fraser and Christy Ann Lawrie, of Westville, N.S., and was one of Pictou County's fairest girls. At their comfortable home on Fourth Street, they have been the recipients of many congratulatory messages during the holiday season, for Mrs. McLeod by her kindly interest and active work has endeared herself in the hearts of not only neighbors and friends, but also of those who have come during later years to live in Coleman.

It is believed this is the first golden wedding anniversary to be honored in the Pass town. It is therefore looked upon as a unique event.

(The bride and groom of yesterday have many friends throughout Pictou County, and particularly in Westville, who will read the foregoing with appreciative interest and who will also join the Coleman folks in extending congratulations and best wishes. Mr. A. C. Fraser, Sydney Mines, well known musician, is a brother of Mrs. McLeod, Mr. Malcolm G. McLeod, of River John, is a brother of Mr. McLeod, and Mrs. Dollie Harlin, of Westville, is his niece. Prior to leaving Westville, Mr. McLeod was on the office staff of the Intercolonial Coal Co. He was a welcome visitor in these parts several years ago.

May the declining years of both Mr. and Mrs. McLeod be their best years. May they both be spared to attain a ripe old age. May heaven's blessings be theirs as they continue to go in and out amongst their friends, beloved for their good works and their gifts of heart and hand.)

MR. CYRIL HAMPSHIRE  
Adjudicator for 1935 C.N.P. Festival

Mr. Cyril Hampshire, who has accepted the invitation to adjudicate at the Crows' Nest Pass Musical Festival, October 24th, 25th and 26th, 1935, was born at Wakefield, Yorkshire, England in 1900. He studied under J. N. Hardy, Music Bachelor, F.R.C.O., organist of Wakefield Cathedral, and in 1915 was appointed deputy organist and leader of the boys. Mr. Hampshire studied piano, voice and theory at the Leeds College of Music, and in 1917 was appointed to the faculty. He came to Canada in 1921 and since then has been organist and choir master of St. Andrew's church, Moose Jaw; Knox church, Calgary, and at present is at Metropolitan church, Regina. In 1928 Mr. Hampshire was offered the position of Director of The Regina College Conservatory of Music. He still holds this position. He has been conductor of The Moose Jaw Male Chorus, and is at present conductor of the Regina Philharmonic Society. Mr. Hampshire has given many recitals, solo and in orchestra, both on the radio and on concert platforms. For some years he has been associated with the Regina Symphony Orchestra.

## FOUNDERS DAY, I.O.D.E.

In commemoration of the 35th anniversary of the founding of the Imperial Order Daughters of the Empire, the members of Crows' Nest Chapter, I.O.D.E., attended in a body on Sunday evening last divine service at St. Luke's Anglican church.

The order was founded by Mrs. Clark Murray at Montreal on February 13th, 1900, and from that small beginning has grown to a strong and great organization.

## A TRIBUTE TO THE SOAP-BOX ORATOR

Wench, the leading C.C.F. member of the House, in a wild tirade against companies in general and the Crows' Nest Pass Coal Co. in particular, says that the latter is responsible for the depression prevailing in the coal business in Fernie at the present time. He alleges that huge dividends paid in past years have killed the coal business. His reasoning and statements are about on a par with the general run of soap-box orators. In the first place he infers that the C.N.P. Coal Co. is capitalized for \$10,000,000, most of which is alleged to be water. The paid up capital of the Company is a trifle over six million and that amount of money would hardly pay for the money invested in plant at the different collieries. The large majority of the stockholders of the company, many of whom bought stock at high prices, have not averaged two per cent per annum on their investment. Mr. Wench may get away with a lot of hot air at Victoria, but the people of Fernie know the real reason for the slump in the coal market, and that may be summed up in two words "fuel oil."—Fernie Free Press.

## IMPORTANT NOTICE

A meeting of the Blairmore Girl Guides Association will be held in the Social Credit room on Wednesday next, March 6th, at 3 p.m.

Will the executive, as well as the mothers, please attend. Important business.

## COMPLIMENTARY TO THE MORGANS

Mrs. Jacob Byers and Mrs. T. J. McCarthy entertained in the Cadillac hotel with a bridge party, complimenting Mr. and Mrs. R. W. Morgan, L. L. Morgan and Mrs. A. R. Laurin, of Pincher Creek, Alberta, Cdn. Mrs. Morgan won first prize. The players were Mr. and Mrs. R. W. Morgan, Mr. and Mrs. L. L. Morgan, Mr. Laurin, Mrs. T. J. McCarthy, Mr. and Mrs. W. A. Merrill, Mr. and Mrs. J. G. Stark, Mr. and Mrs. Byers, Mrs. H. A. Price, Mr. and Mrs. L. R. Smith, Mrs. C. W. Clingman and Mrs. Irene Dunne. —Evening Outlook, Santa Monica, California.

## THE GOVERNMENT AT BLAIRMORE

The reds of the Blairmore union calling themselves the election committee of the Miners' Union have issued a manifesto to the council and school board of that town to the effect that the only holidays to be observed by the schools are May 1st (Socialist holiday) and November 7th, the anniversary of the Russian Revolution. The school board is also instructed to have the children organized into communist clubs. As the Blairmore council and school board were elected on a Communist ticket, there is little doubt that they will accept the instructions as handed out, but what is the Education Government going to do about it? Some private members have already begun to ask pertinent questions about the way things are being carried on in Blairmore. The question is whether that town is part of the British Empire or part of Soviet Russia. Up north in Drumheller the Canadian Legion has a way of handling such a situation, but in Blairmore there does not seem to be a branch of that sort.—Fernie Free Press.

B. M. Gotsal, an Alberta pioneer settler, died at Tacoma, Wash., recently. The late Mr. Gotsal came to Alberta in 1882 and ranched in the Pine Creek district until 1888, when he moved to the States. F. W. Gotsal, of Victoria, B.C., who came to Alberta in 1881 and ranched at Cowley for a number of years, is a brother.

Pincher Creek school board are advertising for a janitor, at a salary of \$700.

Mr. F. V. Cavers, for the past five years manager of the Fernie branch of the Royal Bank of Canada, has been transferred to the bank's branch at Hillhurst, Calgary. He is succeeded at Fernie by A. B. King, of Okotoks. Mr. and Mrs. Cavers moved to Calgary this week.

The Fernie hospital committee has received word that the monthly drawing must cease. The post office department has made a protest to the provincial attorney-general of British Columbia. These drawings have been a great help to a number of hospitals throughout British Columbia, and it is hoped by those interested that the government will make no any defect caused by shutting them down.

## NOW SORE THROAT EASED IN LESS THAN 3 MINUTES!

**Rawness, Irritation Go at Once**  
**Note Directions for New Instant Treatment**

Incredible as it may seem, doctors are now prescribing a way that relieves raw, painful sore throat in as little as 2 to 3 minutes!

All you do is crush and stir 3 Aspirin tablets in 1/4 glass of water and gargle with it twice.

Aspirin tablets disintegrate so completely no irritating particles are left. Results are immediate. At once soreness is eased—discomfort allayed.

Everywhere throat specialists urge this *fundamental treatment* instead of less effective old-time "washes" and "antiseptics." Remember this: And when you buy, see that you get **ASPIRIN**. It is made in Canada and all druggists have it. Look for the name Bayer on every Aspirin tablet. Aspirin is the trade mark of the Bayer Company, Limited.

**DOES NOT HARM  
THE HEART**

If you have signs of a head or chest cold take 2 Aspirin tablets—drink a full glass of water. Repeat in 2 hours.

## WORLD HAPPENINGS BRIEFLY TOLD

T. W. Grieve of Montreal was elected president of the Canadian Produce Association at its annual meeting in Toronto in conjunction with the 23rd annual convention.

Rear-Admiral Richard E. Byrd, who arrived at Dundin, N.Z., with his second Antarctic expedition, disclosed the expedition is \$50,000 in debt.

Toronto Centre presbytery of the United Church of Canada voted 51-20 in favor of ordination of women as ministers. The decision will be passed on to the general council of the United Church.

Steps to organize a Canadian coal committee with a view to encouraging wider markets and greater consumption of this Alberta product were taken at a meeting of representatives of boards of trade and other organizations in the province.

Official sources charged that reports of a famine in Soviet Russia were part of a deliberate campaign by enemies of the Soviet union and cited recent figures to show the wheat crop last year was larger than that of 1933.

Canada's revenues for present fiscal year are running \$31,000,000 and \$32,000,000 ahead of last year. The Dominion's revenues are figured every day. They include customs, excise and income tax receipts, post office revenues, tax on gold and several minor sources.

Dr. H. A. Bruce, lieutenant-governor of Ontario, urged Toronto city council to start immediately on a slum clearance program. Dr. Bruce stated Canada was lagging behind the rest of the world in state-aided housing and it was up to Toronto to give leadership to the rest of the Dominion.

Advertisers what you will do and then make doubly sure that you do what you advertise to do. That is what makes the fullest success of advertising.

Figures show that fewer errors are made in night baseball than when the pastime is played in the day.

## Doctors advise this natural corrective for Constipation!

**Not a drug . . . safe, effective, economical!**

Stop your stomach, bad breath, headaches and all constipation ills. You can do it easily, cheaply with Quaker Bran.

Quaker Bran, the cooking of the wheat, is milled so soft it cannot irritate. Yet it is effective. It works with nature to produce normal, healthy bowel movement . . . persuading the intestinal muscles to normal activity.

Remember, Quaker Bran is different from all prepared bran cereals. It is pure bran, uncolored, un-sweetened, uncooked. For these reasons it is definitely richer in mineral and vitamin content.

Serve it with your regular cereal each morning or in muffins, cookies, etc. There is a recipe book with every package.

**QUAKER BRAN**  
Pure, Natural, packaged bran.

## A Pipeless Organ.

**Electrically Produces Tones In New  
Readless Instrument**

A "pipeless pipe organ" that draws its music from automatic headlight beams has made its debut in Philadelphia. Its tones are produced by electricity alone, with no pipes, reeds, strings, record or sound film arrangement.

It is smaller than most pianos, can be moved about at will, and "plugs in" at any electric light socket just like a radio or an electric refrigerator.

The instrument, developed with the aid of Leopold Stokowski, conductor of the Philadelphia Orchestra, was introduced by its inventor, Ivan Eremoff, Russian pianist and co-creator of the helicopter. Nine-hundred automobile headlight bulbs, arranged in twelve circular batteries of seventy-five each, throw the beams that create the 1,800 tones the electronic organ can produce.

The beams are turned on by the touch of the keys, arranged in standard keyboard style. In front of the headlight bulbs, twelve slotted metal disks whirl continuously. Through these disks, the beams converge on twelve "electric eyes"—electromagnetic cells—which translate the light to sound and throw the sound through amplifiers.

The tones are built up by mathematical formulae in terms of light values, with the various stops blending with a "fundamental." Each stop has a rheostat to heighten or lower intensity and thus obtain different effects. Two foot pedals give volume and tremolo control.

## ALL FOOD MADE HER ILL

**Caused By Acidity—  
Corrected by Kruschen**

"It is only fair to pass these facts on," writes a nurse. "I was suffering from over-acidity and flatulence to such an extent that I could not eat. I couldn't take food. When I actually forced myself to take something, I would be wretchedly ill. I have now taken Kruschen for 12 months, and I have no doubt that it has righted my digestive system. I am now able to eat with vigor again."—Nurse E. S. Indigestion is caused by a failure in the flow of the gastric or digestive juices. As a result, your food, instead of being assimilated by your system, simply collects and ferments inside you, producing harmful acid poisons. The immediate effect of the six mineral salts in Kruschen is to promote the healthy flow of the vital juices of the body. As you continue with the little daily dose, "it ensures the regular and complete elimination of all waste matter every day. And that means a complete end to indigestion."

## Recipes for This Week

(By Betty Barclay)

### ENGLISH YUMS

1 1/2 cup sugar  
1 cup evaporated milk  
1/2 teaspoon each of tartar  
1/2 cup oleomargarine  
1/2 pound pecans, chopped  
Combine sugar, evaporated milk and cream of tartar. Cook, stirring constantly, until the soft-ball stage is reached (238 degrees F.). Add oleomargarine and cook until the mixture again comes to the soft-ball stage (238 degrees F.). Add nuts and beat until the mixture becomes dull—pour into a shallow pan which has been spread with oleomargarine. Allow to set and cut into inch squares. Makes 30 1-inch pieces.

### STUFFED HAM ROLL

Sliced of ham 1/4-inch thick, cut from centre of ham  
2 cups moistened bread crumbs  
1 tablespoon minced parsley  
1 cup tomato juice  
Spread bread crumbs over ham; sprinkle parsley over it. Roll up and tie. Pour over tomato juice, adding a little hot water. Place in baking pan, basting occasionally during the two hours usually required for the baking process.

### Open To Canadians

New York Magazine Is Conducting Another Literary Contest

Any Canadian novelist who has not published a novel in book form is eligible for an attempt along with his countrymen to the south at winning \$10,000 offered by a New York magazine and publishing house. This is the fourth competition of its sort, the first of which was won by Marjorie Cushman of Winnipeg with "With Greatness".

All manuscripts must be 50,000 words and must be in before Oct. 15, 1935.

## WHAT DOES YOUR HANDWRITING REVEAL?

By LAWRENCE HIBBERT  
(Grapho-Analyst)  
(All Rights Reserved)

(Editor's Note: Have you taken advantage of the author's offer to read your handwriting? It is an opportunity to know yourself better, and it may put you on the path to greater things. Read the offer following this article.)

It is not surprising that many of the letters I receive from readers of my articles ask whether there is any indication of talent. It is natural that people should be vitally interested in finding the best line of endeavour to follow, and any information that helps them to get the best out of their capital and make the most use of their latent possibilities is always welcome.

Handwriting does indicate talent, and this is not to be wondered at when we realize that handwriting is from the brain, and the brain is the source of individual power and capacity.

But the mere possession of a talent is by no means everything. We all know people who are talented in particular way, but who do not reach any particular degree of progress, who, in fact, are drifting along without ever doing anything really worth-while.

One case in particular comes to my mind of a man who has a great talent for drawing. He can do things with a pen and pencil that I have rarely seen equaled by a person without any training along that line. Unfortunately, he happens to be blessed with more than enough of this world's goods, and in a position where he does not have to work very hard for his money.

The result is that he has never gone to any trouble to bring out the best that is in him, and the world has lost what he is in a position where he does not have to work very hard for his money.

This case will illustrate my meaning very aptly. I repeat that the most important of these are determination, perseverance and will power.

Many of my correspondents reveal latent possibilities, but they lack one or more of these other traits that are so vital to progress in anything.

There are a lot of people who have made real successes of themselves, without any hereditary or inborn talent, because they have had the will and determination to get somewhere. They have worked hard and made sacrifices in order that they might gain success.

And inversely, as I have shown, there are others with the real vital spark of inspiration lying within them who have failed because of an inability to drive their own will and determination to get somewhere. They have worked hard and made sacrifices in order that they might gain success.

Too many men in the fire often means that none of them are properly attended to, and the result is failure.

Miss J. C. Regina—You are so versatile that it ceases to be an advantage, and becomes a positive menace to you. You can do so many things fairly well that the trouble is to find one thing to specialize on. But you must do this, if you really want to get anywhere. Take up your singing, and put your whole heart and soul into it. Obtain proper training, and make up your mind that you are going to succeed as a singer. That is the only way.

A handwriting analysis may open the door of opportunity to you. Find out what your writing shows, as well as the character of your mind. Send a specimen, and send with it 3¢ stamped addressed envelope to: Lawrence Hibbert, care of Winnipeg Free Press, 175 McDermott Ave., Winnipeg, Man. All letters are confidential, and replies will be forwarded as quickly as possible. Some delay is unavoidable owing to the large number of letters coming in.

## SUNDAY SCHOOL LESSON

MARCH 3

**PETER UNMASKS FALSEHOOD  
AND HYPOCRISY**

**Golden text:** Wherefore, putting away falsehood, speak ye truth each one with his neighbor: for we are members one of another. Ephesians 4:25.

**Lesson:** Acts 5:1-42; 8:4-25.  
**Devotional Reading:** Psalm 139:17-24.

### Explanations And Comments

Peter Unmasks Falsehood and Hypocrisy, Acts 5:1-4. But (in contrast to Barnabas' true generosity; see the preceding verses), another member of the Christian community, Ananias, sold some property, kept back part of the money received, and with the connivance of his wife (Sapphira's translation), brought the rest of it and laid it at the apostle's feet, placed it at their disposal, as if it were the whole. "So it happens that the Holy Spirit, and to keep back part of the price of the land?" He had not sinned against men but against God.

"While it remained, did it not remain thine own? And after it was sold, was it not in thy power? How is it that thou hast conceived this thing in thy heart?" Peter's words show that the selling was wholly voluntary and that the sin of the couple was not in retaining part of the money received, for they had a perfect right to do this, but in pretending that the part which they offered was the whole, in seeking to gain unmerited reputation for liberality. Ananias had not lied unto men, but unto God. A lie may be as bad as well spoken.

The Fate of Ananias, Acts 5:5, 6. At these words Ananias fell dead, and his body was taken up and immediately buried. Here we may well recall the sensible words of Dr. Faunce that our mission is not to justify the ways of God to men, but to rectify the ways of men to God.

## GARDENING

Gordon L. Smith

Spring is once more approaching and with it the desire in the normal human being to start something growing. But the signs of winter will have disappeared and the earth gradually change from its drab coat of brown to something green and warm. But before this change, the would-be gardener commences his work in the garage, the kitchen or the back yard, and he begins to plan, and equipment is checked over. Much is said as to gardening, but the proper planning and much practical value also. Like a great picture or a fine garage, the garden is a work of art, and the result will largely depend upon the thought which precedes actual construction.

**Width Vegetable Rows**  
Practically all vegetables should be grown in absolutely straight lines. Little things like lettuce, radish and carrots can go in rows from eight to twelve inches apart, while peas and beans will need fifteen to eighteen inches and corn and tomatoes, sprawling cucumbers and melons, 18 to 24 inches. To save space, rows of early and small stuff such as lettuce and spinach can be planted between corn and beans. Where this close planting is followed, it will be necessary to cultivate and fertilize frequently.

**Flower Plans**  
In planning the flower garden, time of planting is important because some things must be started from seed indoors or in a hot bed. Certain flowers will stand a light frost and some will stand a hard frost. Where this close planting is followed, it will be necessary to cultivate and fertilize frequently.

Flowers like the sweet scented Evening Stock, while not particularly beautiful, have such a delightful odor, particularly in the early evening, that some of them should be included. Then again, flowers have individual preferences. Some like partial shade. Among these are tuberous rooted Begonias and annual Larkspurs, while the bright Nasturtiums, Foxgloves and California Poppy revel in full sun and a dry location. With flowers, shrubs, lawns and all forms of decorative gardening, informal planting is advised. Straight lines should be avoided, and already in existence, like house foundations and fences should be screened. Clumps of shrubbery and a few trees about a house will not only break these harsh lines, but will tend to tie the structure down to earth and produce a complete picture.

Friend—"I suppose you have your share of doubtful bills on your table."

Merchant—"I only wish they were there's no question about most of them."

Secretary—"Well, what does that make me?"

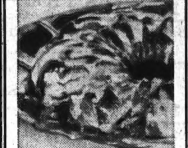

Boss—"My ex-secretary."

## Use ROYAL YEAST CAKES

for a variety  
of breads  
like these...

Nourishing Graham Bread is always popular. Recipe card 8 of Royal Yeast Cake Book.

French Tea Ring . . . a dainty luncheon treat! See recipe on page 9, Royal Yeast Cake Book.

This Dutch Apple Cake will make a tempting dessert—recipe on page 13, Royal Yeast Cake Book.

## New Sun Reflector

Vesey Simple Device Has Been Invented In Germany

A simple device, consisting of a thin sheet of highly polished metal cut somewhat in the shape of a kidney, is a German invention designed to bring sunshine into every home. The reflector is especially useful for directing the health-giving rays of the sun to the face. It also can be used in treating other parts of the body where solar heat brings beneficial results. The polished sheet of metal is corrugated in such a way that its many fluke-like ridges act as multiple reflectors which intensify the heat of the sun's rays.

The age of man has been placed at 16,000,000 years, by a new comparison of blood serum of mankind and ape.

## Are You a COLDS-SUSCEPTIBLE?

**Do You CATCH COLD Easily?** **Do Your Colds Hang On AND ON?**

At the first warning sneeze, stuffiness or nasal irritation, quick-apply Vicks-Va-trol—just a few drops up each nostril. Its timely use helps to prevent many colds, and to throw off colds in their early stages.

### WELCOME NEWS FOR COLDS-SUSCEPTIBLES!

These twin aids to newer and shorter colds give you the basic medication of Vicks Plan for Better Control of Colds. You'll find full details of this unique, clinically tested Plan in each Vicks package.

### VICKS PLAN FOR BETTER CONTROL OF COLDS

## THE TENDERFOOT

By **GEORGE R. RODNEY**

Author of "The Coronado Trail," "The Canyon Trail," Etc.

### SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

Dad Kane, desert rat, returns to tell Dustin and Spike Goddard, who had grubstaked him, of his discovery of a rich gold mine, and shows samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and talks to Edith. He mentions their dispute could be settled by marrying him, and Edith refuses his proposal with remarks that make Dustin furious. He ignites Stone, who promptly throws him into a pool of water.

Stone tells Crowe, his foreman, about his meeting with Dustin, Stone and Crowe go to Seco to send a telegram to Gerald Keene. While at Seco an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men rustling Carr's cattle. He sets out with Dad Kane to learn the location of his gold discovery. Dad Kane shows Dustin the mine.

They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peyotl Gregg, a drug addict, who, stupefied by pain, protests he had taken, did not know whether he was guilty or not. They bury Kane and then return to the Broken Spur ranch.

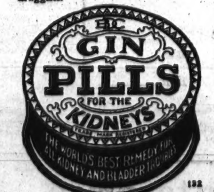

Meanwhile at the Hour Glass, Carr, Crowe and Stone speculate as to the meaning of entries in the notebook belonging to Dane Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by Edith Carr, rides out to Red Water to test out his theory, which proves correct, and they find the rich gold deposit mentioned in the prospector's notebook. As they return to the ranch, they meet Dustin leaving the house, who purposely, but unsuccessfully tries to ride down Stone.

(Now Go On With The Story)

CHAPTER XII.—Continued

"It's peyotl," he said sharply. "I know the damned stuff. Peyotl is the old Aztec name. All I know of it is that it is one hell of a kind of dope. After a little while it crazes the user. . . . distorts his ideas of right and wrong, you know. If you found those half-smoked stubs by the camp fire, it's pretty clear that whoever

**Backaches** indicate kidney trouble. **GIN PILLS** give prompt and permanent relief as they act directly but gently on the kidneys—soothing, healing and strengthening them. 50c a box at all drug stores.

W. N. U. 2087

and came back with bottle and glasses.

"You're tryin' to talk like a sane man," he said, "but your words just don't target. You don't know this man Dustin. By Carr's note, Sam Dustin practically owns Carr's half of the Hour-glass ranch. Keene owns the other half. A gold-mine has been found on the Hour-glass. Will Sam Dustin give half of the Hour-glass with its gold mine to a man he never saw? What deal will he make with this Gerald Keene? I'll tell you. In some way or other, in some damned dark, deep way that we couldn't think of, Gerald Keene will lose his share of the Hour-glass and Sam Dustin will own it."

"Talk your age," said Stone laughingly. "This man Dustin, that you all credit with superhuman powers, can't work miracles. I reckon the main thing for me to do is . . . find this man Kane. He's the key to the whole damned mess."

"You're probably right"—Jameson nodded curtly—"but consider this. . . . In the camp near where that gold-ore was found you found those pieces of peyotl cigarettes. I don't believe anybody about here but that man Gregg ever smokes them. If our guess is right, then Peyotl Gregg was with the man who found or located that ore vein. . . . Probably old man Kane. The fact that Sam Dustin had that package in his coat pocket implicates him, of course. You can always get him under the narcotic law. He can explain it, of course. . . . But we don't need that now. You best bet to find out exactly what has taken place in the question Peyotl Gregg or . . . and Dad Kane. . . . And for God's sake tell his man Gerald Keene to watch his step when he gets here."

"What do you mean?" demanded the mystified Stone.

"You half-baked idiot!" Jameson flung himself across the desk. "This man Gerald Keene represents one-half of the Hour-glass. Sam Dustin virtually owns the other half in the note that he holds from Joe Carr. Gold has been found on the Hour-glass and Dustin knows where it is. Do you want to see Sam Dustin marry Edith Carr?"

There was no doubt in Duro Stone's answer to that question.

"All right! Then carry out your first plan. . . . Find Dad Kane! I'll start a stunt for him. In the meantime we might try a hand at Peyotl Gregg if we can find him."

With those words in his ears, Duro Stone took his departure.

### CHAPTER XIII.

Spike Goddard watched Dustin ride up to the ranch-house of the Broken Spur and turn his horse over to one of the hands. With one glance at his partner Spike emitted a long, low whistle, went to the office, got out decanter and glasses and sat down to wait. Presently Dustin stormed up the steps, banged into the house and into the office, where he stood staring at his partner. Spike's very silence condemned him; also it acted on Dustin like salt on an open cut.

"What the hell ails you?" demanded Dustin curtly. "Anything happen to you?"

Spike shook his head. "Nothin' ever happens to me," he said. "I stay home and 'tend to my knifin' and nothin' ever happens to me. If I ever went traipsin' over the valley trailin' some red-headed girl who likes me just as much as a prairie-dog likes a ground-rattler, I might expect somethin' to happen to me but it never does. . . ."

The bottle whizzed past his head and broke in a score of fragments on the wall. He retrieved his glass that had escaped ruin and laughed.

"You go on an' answer your own

## GREASY POTS AND PANS NEARLY DROVE ME WILD

UNTIL I USED

**It lifts grease right off without scrubbing**

Just use a solution of 1 teaspoon of Gillett's Pure Flake Lye in a quart of cold water. Instantly the grease dissolves—without scouring! Use Gillett's Lye whenever you want an effective house-

hold cleanser. Frees clogged drains, cleans toilet bowls. Kills germs, and destroys odors. Order a tin from your grocer!

\*Never discolors lye in hot water. The action of the lye itself heats the water.

**FREE BOOKLET**—Send for the free Gillett's Lye Booklet. It tells how this powerful cleanser and disinfectant shortens dozens of cleaning tasks. Also gives full directions for soapmaking, thorough cleaning and other uses of the lye. Address: Standard Brands Limited, Fraser Ave., & Liberty St., Toronto, Ontario.

## GILLETT'S LYE EATS DIRT

question. What all happened to you?"

Dustin told him sketchily and Spike listened in evident disbelief. When that disbelief turned too great for words, Dustin turned on him in growing wrath.

"Listen here," he said. "I'm going to come clean with you, Spike. Then you'll understand what I'm after."

"I know," said Spike guardedly. "You're after that red-headed girl of Joe Carr's."

"Yes and by God, I'll get her, too. I want over to the Hour-glass to put it up to her, but she was out ridin' with that damned drug-store cowboy, wanderin' over the country. Six months from now she'll be my wife and she'll have her own kitchen to tend to. She'll be stayin' home then. . . ."

"Looks like that ambition ought to keep any red-headed woman content," said Mr. Goddard, grinning. "It looks to me like you've got the message to persuade her. Why don't you tell old man Carr that you've bought up his note to Peggam for eleven thousand dollars and that if Edith don't marry you, they're both headed for the Poor Farm? You'd have him short if you spring that on him."

(To Be Continued)

### Discovered By Accident

Money Made And Saved In Very Simple Ways

In the modern ice-cream barrow the cream is kept frozen by use of "dry" ice—that is solidified carbonic acid. A boy in charge of one of these barrows found that, when he took a piece of this dry ice and put it against the bell of his bicycle, the bell would give a rattling ring. From this it was discovered that frozen carbon dioxide produces notes whenever it touches metal and, as a result, a new method has been found for helping musical instrument makers to attain perfect tuning.

A Durban metal worker was asked by a friend to nickel a candlestick. Though this was against the rules of the firm he consented. The regular process was to plunge the article a number of times into an electric bath, a slow and costly process, but as an experiment this man tried a special metal flnish. The result was so good and so rapid that he took the idea to his employers and the resultant saving in the factory is \$150,000 a year. Tar paving was discovered by a boy who was sent for two gallons of tar to dress a roof and on his way back upset the tar in the road. Later it was found that the stones were firmly bound together, and so came about tar macadam.

### A New Occupation

Proprietor Of Belgrade Store Does Sums For Students

"Sums done for three halfpence a time," is the notice that has been put up in the window of a shop situated opposite a school in Zagreb, near Belgrade, Serbia. The proprietor does a roaring trade. Every evening students deliver their mathematical homework, and every morning on their way to school they call for it—correct in every detail.

Berlin will be a "soapport" when the elevator now being constructed on the River Oder is ready to do its work of lifting river steamers 130 feet.

### Edison Bought Patent

Englishman Was First To Make Carbon Filament Lamp

The remark by a Toronto professor that Edison was not the inventor of electric light may surprise the majority of people, but it is quite true. The first electric lamp was produced by Sir Joseph Swan, who was born at Sunderland, England, in 1828. He was a chemical engineer who first achieved success in improvements in photography. He made a carbon filament lamp as early as 1862, and in 1880 exhibited the first filament vacuum lamp.

Edison was working along the same lines about that time, and he bought the Swan patent. Subsequently the first lamps issued from his factory were described as "Ediswan" lamps, thus linking the two names together after Edison had improved on the original Swan lamp—St. Thomas Times-Journal.

### Highway Construction

Twelve Mile Stretch Between Keewatin And Manitoba Border To Be Completed

Tender for the construction of the 12-mile stretch of trans-Canada highway between Keewatin and the Manitoba border, has been let to the Assiniboia Construction Company of Kenora, it was learned at the Ontario department of northern development.

Work will be started soon, and from 100 to 200 men will be employed on the project which will require about six to seven months to complete. Figures of construction costs were not available.

A purple-topped yellow-fleshed turnip which has been grown in Aberdeenshire, Scotland, for the past 100 years has been found by agricultural scientists to be resistant to club-root disease. The origin of this variety of turnip is unknown.

The farm implement trade in the Argentine is controlled principally by Canada and the United States. Canadian-made harvesters, grain drills, riding ploughs, corn cultivators and planters being well established.

### Little Helps For This Week

"The beloved of the Lord shall dwell in safety by Him, and the Lord shall cover him all the day long." Deut. 33:12.

Whatever events befall, Thy will they all perform; Safe in Thy breast my head I hide, Nor fear the coming storm.

I have seemed to see a need of everything God gives me, and want nothing that He denies me. There is no affliction but either in it, or after it, I find that I could not be without it. Whether it be taken from me, or not given me, sooner or later God quiets me in Himself without it. I cast all my concerns on the Lord, and live securely on the care and wisdom of my heavenly Father. If my ways are in a sense hedged up with thorns and grow darker and darker daily, yet I distrust not my God in the least, and live more quietly by faith than I would do if I possessed everything.

### SKIN RASHES

Give Place to Velvet Smooth Skins

In almost countless numbers, skin sufferers have had cause to be thankful for D.D.D., the prescription of a highly successful physician, Dr. D. D. Dennis. This liquid prescription, now made and endorsed by Campana's Italian Balm chemists, allays irritation almost at once, and quickly clears up such skin troubles as eczema, hives, acne, ringworm, dandruff, pimples and rashes. Ask your druggist for D.D.D. Prescription. Trial size, 35c. Guaranteed to give instant relief or money refunded.

### Want Beer Referendum

Taking a referendum at the next provincial general election on the abolition of sale of beer by the glass was urged when a joint delegation from the Alberta Prohibition Association and 14 church denominations interviewed the provincial government. Premier Reid stated in reply that the government would give the request immediate consideration and that the delegation would be advised early of the decision.

Spain is exporting twice as many melons as a year ago.

# TEN COMMANDMENTS FOR NURSES

1. Thou shalt have none other inter-  
est than thy patient.
2. Thou shalt work for him and  
slave for him and make his bed and  
rub his back, and even though thy  
feet ache and thy back be breaking,  
thou shalt comfort him with thy  
sympathy.
3. Honor thy charge nurses and the  
T.S.O., that thy days may be long in  
the hospital that thou hast chosen.
4. Thou shalt not be familiar with  
interne, neither listening to his smu-  
tly stories nor making coffee for him  
in the ward kitchen.
5. Thou shalt not smoke.
6. Thou shalt not drink.
7. Thou shalt not swear.
8. Thou shalt wear thy hairnet  
every day and thy stockings shall not  
be rolled below thy knees, for thou  
knowest not when thy superintendent  
cometh to make uniform inspection.
9. Six days shalt thou labor, also  
the seventh, all high days and holi-  
days without complaint.
10. Thou shalt not covet the House  
Excess life, nor her leisure nor her  
slim ankles nor her dainty feet, but  
shall be content to serve others all  
the days of thy life.—EX.

The Solidarity Ladies' Club of West  
Blairmore, held a very interesting  
smoker on Monday evening at the  
home of Mr. and Mrs. Gelecaugh.  
Cigars, cigarettes, chewing and smok-  
ing tobacco and pipes, were donated  
by business people of the Crows' Nest  
Pass.

Speaking of medical costs, we  
met a friend the other day who is the  
proud father of a baby boy born re-  
cently. We asked him how the bairn  
was getting on. "Oh, fine," he an-  
swered, "when I've paid the doctor an-  
other fifty dollars, the baby will be  
my own."

## HILLCREST HAPPENINGS

A whist drive and dance sponsored  
by the Social Credit group, was held  
in the Catholic hall on Tuesday night.  
The hall was filled to capacity. After  
whist, supper was served and dancing  
continued until 2 o'clock, the Rhythm  
Aces supplying the music. The five-  
dollar bond for the highest score at  
whist was won by Joe Laimp; ladies'  
first by Miss Lazarenko, gents' first  
by Mr. J. Panik. The cushion was  
won by Mrs. D. Jones.

J. McDade, who has been a patient  
in the local hospital, has returned to  
his home.

The many friends of Mr. and Mrs.  
R. C. Stutchbury, of Lethbridge, are  
interested to hear that Mr. Stutch-  
bury is being transferred to Ottawa.  
They left Lethbridge last week for  
the capital, where they will take up  
permanent residence. Mr. and Mrs.  
Stutchbury were residents of Hillcrest  
up to about three years ago.

Mr. and Mrs. A. Blackie and fam-  
ily, of Fernie, were week-end visitors  
at the home of Mrs. George Bambo-  
rough.

A Slavonic dance on Saturday  
night was fairly well attended.

John Ferstay, who is attending the  
Calgary school of technology and art,  
paid a visit to his home here over the  
week end.

Little Jean Fisher entertained her  
friends at her sixth birthday celebra-  
tion on Monday evening.

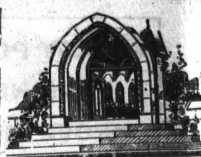

J. Douglas, R. Crichton, R. Rich-  
ards, H. Westrup, E. Fisher and P.  
Haggerty journeyed to Lethbridge on  
Saturday to attend a Masonic enter-  
tainment.

Bellevue's school nominations last  
week resulted in Joe Christie, John  
Dugdale and John Bovio being elect-  
ed to fill the three vacancies by ac-  
clamation. Bellevue has a complete  
board of workers, namely John Price,  
Joe Christie, Steve Magdall, John  
Dugdale and John Bovio.

The Coleman Canadians, accom-  
panied by a number of fans, left last  
evening by special Greyhound bus for  
Drumheller, where they meet the  
Miners tonight. The return game will  
be at Coleman Saturday night at 9.15.  
The winner of this series qualify to  
enter the Interprovincial Allan Cup  
play-downs.

Doctor: "Have you heard of the  
Oxford movement?"

Nurse: "No, doctor. We always  
use cascara."

BLAIRMORE UNITED CHURCH

"Serve the Church that the Church  
May Serve You."

Services Sunday, March 3rd, the  
minister in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7.30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES  
Rev. A. S. Partington, B.A., Rector

Services Sunday, March 3rd:

Sunday School at 10 a.m.

Holy Communion at 11 a.m.

The Bible class will meet every  
Thursday in the church at 7.30 p.m.  
Everyone welcome.

## HILLCREST UNITED CHURCH

Rev. John Wood, Minister

Services Sunday, March 3rd:

Sincerely the poet Pope declared,

"an honest man's the noblest work of  
God." Jeeringly, "Bob" Ingersoll

said, "an honest God is the noblest  
work of man." How those derisive

words touch the border of truth will  
be developed in the topic "The Su-

preme reality: God," at the Sunday  
evening service.

## TO A SOAP-BOX RED

Chicago, Ill.—  
The native said to the Communist  
Red,

"Clear out with your fiery flag!

If you don't like our flag, just pack  
up your bag

And go to—from where you came.

"If you don't like the glare of our  
national air

(We claim it's the best on earth),  
Go back to the note that rang from  
your throat

In the land that gave you birth.

"If you don't like the men that gov-  
ern us, then

Go back to dictators and kings;  
And there meekly squirm like a well-  
behaved worm

And cheer while the army sings.

"Get down from that box and pull up  
your socks—

Your exodus starts today;  
For no Communist scheme or Soviet  
dream

Can live in the U.S.A."

—Oliver Allstrom,  
Member of American Legion.

One night last week we dreamt that  
we had been asleep for a month when  
we woke up to find twenty-five So-  
cial Credit bucks tucked in our vest  
pocket. To make matters even bet-  
ter, we dozed to sleep again and wak-  
ing a month later found another  
twenty-five. Them days must be  
comin'!

Dr. W. G. Hardy, whose recent  
novel, "Father Abraham," is being  
widely acclaimed by British and  
American critics, and which was  
chosen book-of-the-month by the  
British Literary Guild, is a member of  
the University of Alberta classics de-  
partment. There is strong probability  
that the book will be produced in  
moving picture form.

A Swedish farmer who wanted to  
make his permanent home in this coun-  
try appeared for his naturalization  
papers.

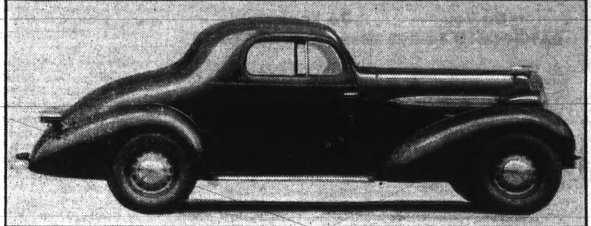

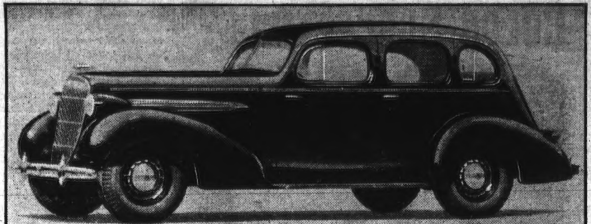

"Are you satisfied with the general  
conditions of this country, Mr. Ol-  
son?" he was asked.

"Yah, sure," answered Olson.

"And does this government suit you?"

"Well, yah, mostly," stammered  
the Swede, "only I lak to see more  
rain."

## Oldsmobile Announces Six and Eight for 1935

### NEW CARS FEATURE SAFETY AND BEAUTY

With both the Six and the Eight Oldsmobile presents two beautifully streamlined automobiles in 1935. Modern design, added comfort, in-  
creased operating economy, and new  
solid-steel Turret-Top bodies by and  
below is one of the Oldsmobile  
models. Pictured above is the Olds-  
mobile Eight 5-passenger Sedan,  
Fisher are all offered in the 1935 Six Coupe.

### Didn't Earn His Pay

Pat's wife had been ailing for  
long time and the doctor who was  
treating her didn't seem to be effec-  
ting any improvement in her health.  
Finally Pat took his wife to another  
doctor, and, after the examination  
asked him if he thought he could cure  
her. Upon receiving an affirmative  
answer, Pat said:

"Doctor, O'll make a bargain wid  
ye. Ye treat me wife and O'll give  
ye \$200 whither ye kill her or cure  
her."

### The medico agreed and commenced

treating Pat's wife. In a short time  
the poor woman died and the doctor  
presented his bill.

Pat refused to pay, so the doctor  
sued him.

When the case came up in court,  
the doctor told of his agreement with  
Pat. The latter was then called to  
the stand and said:

"Whin the doctor comminat treat'a  
me wife, O' promised him \$200 if he  
killed her or cured her. Now, doc-  
ter, did you cure her?"

### "No."

"Did ye kill her?"

"No."

"Thin, be jabers, ye don't git a  
dommed cent!"

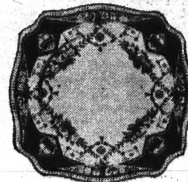

A private, walking down the street  
with his sweetheart, met a sergeant  
belonging to his regiment.

"My sister, sergeant," said the  
bashful young man.

"That's all right," said the se-  
rgant, smiling, "she used to be mine."

## COWLEY HAPPENINGS

At the entertainment of the Cowley Ladies' Bridge Club at the home of Mrs. F. A. Tustian on Wednesday evening, honors were won by Mrs. W. Fortier and Mrs. A. Horning.

Mrs. Johnson and children, of Arrowwood, are paying a visit to Mr. and Mrs. A. Horning, her parents, at the Cowley hotel.

Edgar Cowin was called to Calgary on Tuesday, owing to the illness of Mrs. Cowin.

The annual meeting of the town council was held on Wednesday evening, when, after routine business was dismissed, a discussion took place on the condition of the school sidewalk, when it was proposed to build a new one. F. A. Tustian was re-elected to the council board for another three-year term.

A very successful dance, sponsored by the ladies of St. Joseph's Roman Catholic church, was staged in Wilson's hall on Friday night with a good attendance. Prizes were awarded in the following order: spotlight, Miss Muri Smyth and Cyril Easterbrook; French minuet, Mr. and Mrs. Bill Bennett, first; Mrs. I. Christie and Dick Alexander, second; ballroom, Miss Avis Horning and Gordon Swart.

C. R. Evans, of Acme, who has taken over the management of the Alberta Pool elevator, has taken up residence in town, having moved his household effects here the latter part of the week. E. B. Hagell, who has been agent for this elevator for the past year, resigned the position and has moved his family to Beiseker, where he will in future engage in farming. Miss Barbara Hagell, who has been a visitor at the Hagell home here for several weeks, accompanied her brother and family to their new home.

Subscription are being called for towards a fund, the purpose of which is to send a naturalized Russian citizen from Canada to Russia to visit or to stay. It is estimated that at least \$5000 would be necessary.

## Boy Scouts' Campaign

Legion of Nations. "They say I've got no army; but why should I want one with these allies?" (By courtesy of French.)

His Excellency, the Governor-General of Canada challenged Canadian Boy Scout leaders to celebrate the coming visit to Canada this spring of the World Chief Scout, Lord Baden-Powell, by initiating a drive to increase the ranks of Canadian Scouts from 65,000 to 100,000, thus extending the benefits of Scouting to hundreds of Canadian communities now without an organized programme of any kind for their boys. The Scout movement as a whole accepted the challenge, but expansion demands

more trained leaders and more field work. To ensure the success of the enterprise and finance the Scout movement in Canada for the next five years, a campaign to raise \$500,000 was inaugurated with a nation-wide appeal on February 18th by E. W. Beatty, R.C. L.L.D., Chairman and President of the Canadian Pacific Railway, who is also President of the Boy Scouts Association in Canada.

This Campaign has the hearty support of every thinking Canadian citizen.

## BELLEVUE HAPPENINGS

The guest night held on the 13th, and sponsored by Ray of Hope Rebekah Lodge, was a huge success, there being 32 tables of whist in play. Prizes were won by Mrs. D. Grant, Hillcrest; ladies' first; Mrs. J. Shevels, second; D. Grant, Jr., gent's first; Mrs. Charles Ritchie, second. After a dainty supper, dancing was enjoyed to music supplied by Bobby Blake and his orchestra.

A very pleasant evening was spent on February the 20th, when a large number of friends of Rev. Father Donovan, formerly of Bellevue, now of Calgary, met in the parish hall and gave him a surprise party. Father Donovan was presented with a purse of money. During the evening's entertainment, Father Donovan was again called on by Mr. Spooner, representing the local branch of the B.E.S.L., who presented him with another purse from his many friends and members of the Legion. In a few words, Father Donovan thanked his friends for their kind remembrance and appreciation.

Mrs. J. Delain and son Larry have arrived from Edmonton.

The whist drive and dance held by the Women's Auxiliary of the B.E.S.L., was very successful. Whist prizes were awarded to Mrs. W. Alexander, ladies' first; Mrs. B. Milnes, second; Miss V. Bradley, gent's first; Mr. Malfoy, second. The high light of the evening was the ballroom dance, which was won by Miss A. Martin and Mr. R. Truba, both of Hillcrest. Music was supplied by the Arcadians.

James Tutt is "breeding" around in a 1935 Plymouth coupe.

Mr. and Mrs. T. Jones, of the Gap district, are rejoicing upon the arrival of a son, at the home of Mr. and Mrs. E. C. Costick, Bellevue.

There passed away at her home here on Sunday morning, after a lingering illness, Mrs. M. Eccleston. Mrs. Eccleston was one of Bellevue's old-timers, having resided here for the past twenty years. She leaves to mourn her passing two children, Mr. Bert Eccleston, of Bellevue, and Mrs. J. Delaine, of Edmonton. Funeral service was held in the United church on Monday afternoon, with Rev. Mr. Upton officiating, after which the cortege wound its way to the cemetery, where interment took place. The sympathy of the entire community is extended to the bereaved.

The whist-dance, sponsored by the Caledonian Society and held in the I.

O.O.F. hall on Monday evening, was a huge success. Prizes for whist were won by Mrs. Bill Fisher (Hillcrest), ladies' first; Miss B. Micholson, second; Mrs. Penman, gent's first; Mr. Ed. Fisher, second. After cards and supper, Mr. J. Kerr, president of the society, presented Mr. and Mrs. Cranston with a beautiful electric clock for the many services they have rendered during their stay in Bellevue.

Miss Bernice Berry entertained a number of school chums at her home on Friday evening, in honor of Miss Juanita Cranston, who is shortly to leave with her parents for Medicine Hat, where Mr. Cranston is being transferred.

Mrs. J. L. Cousens entertained a number of friends at her home on Monday evening.

The Junior choir, under the leadership of Mrs. Upton, held a very enjoyable party in the church on Tuesday afternoon, in honor of one of their energetic little workers, Juanita Cranston, who is shortly to leave for Medicine Hat. Juanita was presented with a beautiful Parker pencil on behalf of the choir. In a few well-chosen words she thanked her little friends for their kind remembrance.

Mr. and Mrs. G. Koenges are rejoicing over the advent of a son.

Mrs. N. Macaulay, of Coleman, is visiting at the home of Mrs. J. D. McDonald.

Mr. and Mrs. Albert Goodwin, who motored to Calgary last week, returned home on Monday night.

Mrs. J. Longworth entertained her senior Sunday school class at her home on Wednesday.

The senior choir of the United church were hosts at a nicely arranged party in the church parlor on Tuesday evening after practice. The first part of the evening was taken up with a programme, after which supper was served. After supper, Mr. Charles Emmerson, on behalf of the choir, presented Mrs. Cranston with an electric waffle iron, expressing regret felt by all at the departure of two faithful workers. Mrs. Cranston thanked the choir for their kindness. Games and a sing-song followed, the party coming to a close with the singing of "Auld Lang Syne."

## VICTORIA set for WINTER GOLF FESTIVAL

Golf on sun-shine flooded

courses over fairways and greens as springy and smooth as in summer, but with a minimum of rough, is the lure for the seventh annual renewal of the Empress Midwinter Golf tournament to be played over the scenic and championship links of the Oak Bay course at Victoria, B.C., February 18-23.

The lure of midwinter golf brings the ardent golfer from all parts of Canada and the United States, not to mention Europe, to compete in this now famous tournament, inaugurated seven years ago by the Empress Hotel, Victoria and the Canadian Pacific Railway with a view to telling the world that Canada has in its courses on Vancouver Island, weather conditions that rival those farther south in winter time. There is no lack of prizes, and some of them rank high in the world of golf trophies.

The E. W. Beatty Trophy still remains the chief award, but the prize list has been augmented greatly. The Victoria Chamber of Commerce set up its fine cup as the reward for an open amateur championship — the Beatty Cup being for handicap play in men's and women's divisions; the late Jack Matson, noted British Columbia sportsman, added his cup for inter-district team matches played for by four-men teams, and the Victoria Rotary club put up a handsome rose bowl to reward the fair golfer who turned in the best gross

qualifying score, and the Victoria Golf Club and Royal Colwood Golf Club also have been helpful in increasing the array of silver ware to more than fifty fine pieces.

For 1935, the sea-girt, short and tricky Oak Bay course of the Victoria Golf Club has been chosen as the scene of the 7th Empress tournament, with dates February 18-23 inclusive.

Lay-Out shows the first Green: the E. W. Beatty Cup; the Oak Bay Club House, and the Empress Hotel.

from mulberry and bamboo fibres, then to America, through Egypt. The drawing on Canada's vast wealth of the Chinese managed to retain the secret until the eighth century when some Arabs forced it out of a Chinese they had captured. In this way the art was brought to Europe and

then to America, through Egypt. The first paper mill in Canada was built in 1801, the Maritime Provinces, in New Brunswick and Nova Scotia. Paper mills are also located in Quebec, Ontario and British Columbia.

#### What Are Actual Needs?

Listening to a discussion the other day on quotas and schedules adopted by governmental authorities as a guidance to those entrusted with the heavy and extremely difficult task of dealing with the cases of people who at this time are compelled to look to governments for the bare necessities of life, the question was forced upon our attention: What do we actually need?

There are an enormous and varied number of things we want, and our wants differ as greatly as our individualities differ, but when it comes down to a definite listing of the things we actually need not only to sustain life, but to make life really worth living, the number and variety of such needs is comparatively small.

People to-day list as needs scores of things which less than a generation ago were not even in existence, or so little known and in use as to be regarded as very great luxuries. For example, unemployed people living in our cities and, through no fault of their own, compelled to accept municipal and government help, look upon the provision of electric light as an absolute necessity, and would consider it a great hardship if they were asked to resort to candles, or even the old kerosene lamp, as a means of illumination. Yet their parents got along very well with kerosene lamps and their grandparents and great-grandparents did not feel they suffered any great hardship because they had nothing but candlelight. And throughout the length and breadth of rural western Canada to-day hundreds of thousands of people get along very well with kerosene lamps. But in our cities people now list electric light as an absolute need.

Casting our memories back to boyhood days, thirty, forty, fifty years ago, we recall that our clothing and food requirements, our actual needs, were small and inexpensive compared with what we list as needs now. As a matter of fact, many of our so-called present day needs are not needs at all, and if our environment was shifted, we would not regard them as needs. Hundreds of people go camping every year, leave what we term "civilization" and go off into the wilds, and put up with conditions of living, and go without scores of things,—and enjoy doing so,—which at home they insist upon having as actual needs.

Life, and real living, does not consist in the abundance and variety of the material things we may possess. The pioneer lacked most of the things now listed as absolute necessities, yet they enjoyed good health, were happy, and found life well worth the living. They built homes, reared families of sturdy children, saw beauty in their surroundings, and developed character. Their needs were few and inexpensive. And they built nations.

These years of depression are developing two types of people. Out of one group men and women are emerging with stronger, finer characters. They are more self-reliant, with hampering specialities burned away like so much dross, with the result that with the passing of the depression they will be the strong men and women who will take the leadership in this world, and who, out of the experiences of these years, will profit throughout the years to come. The other group consist of those who have been content to drift with the tide, to regard themselves as the sole victims of circumstance, ready to sit with folded hands and let others not merely provide them with actual needs, but who demand that these others shall further burden themselves in order that they may be supplied with things they want over and above their needs. With the passing of the depression, members of this second group will find themselves unequipped and incapable of making that provision for themselves which they will then be called upon to make.

People in this second group are ruining their own lives and jeopardizing their whole future. Before it is everlastingly too late they should take stock of themselves. The State must and will provide all people with actual needs of subsistence, including shelter, food and clothing when because of the vagaries of nature, or the inability to secure employment, these people cannot supply their own needs. But desires and wants must not be confused with needs. And the fact that the day is coming when all people will have to make provision for their own needs, as well as to gratify their desires and wants, should not be lost sight of.

It would be well, therefore, for all people to give serious consideration to what are needs and govern their demands upon their fellow citizens, as represented by the State, accordingly.

#### Seven Miles Of Wool

Used In Scarf Weighing Only Two  
And Half Ounces

A London newspaper says: "With shame and sorrow this column has to admit that it rather shirked dealing with the question of the royal wedding presents at the time of the wedding of Princess Marina and the Duke of Kent. It seemed such a vast task, and photographs of the presents while they were on display gave a much better impression. But now, although so late in the day, it seems a pity not to tell of one present the Duchess of Kent received. It came from the Shetland Islands, and was a self-made gift from the Islanders themselves. It was a scarf knitted by Mrs. Thomas Sutherland, who is 80 years old, and contained seven miles of wool thread weighing only two and a half ounces! That, we maintain, is fine wool. It was plucked by hand from the necks of lambs and spun by the 83-year-old sister of the knitter."

#### Strange Happening

Radio Music Is Heard From The  
Spout Of A Kettle

Steam comes out of the spout of Miss Ruth Lighthour's kettle at Oakville, Ont., but the utensil is also capable of producing other things. During a heavy fog, fine orchestra music came from the water container as it sat on the stove. The program, which was audible eight feet away, lasted 20 minutes, then faded. During a lighter fog the performance was repeated, but the music was fainter.

There is no radio in the house and the stove is in no way connected with a ground or aerial system. Miss Lighthour is at a loss to explain the strange occurrences.

#### HEADACHE, BACKACHE?

Mr. J. W. Flanagan, 6 Lark Ave., Toronto, Ont., says: "I had head-aches, pains in my back, had no appetite and could feel dirty and faint. I was so weak I could hardly keep up. I took Dr. Pierce's Favorite Prescription and it seemed to give me new life." New size, tablets 50 cts., liquid \$1.00. Write Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

#### Signs All Can Read

Pictorial signs—a telegraph post for the telegraph office, a trunk for the baggage office, and a big question-mark for inquiries—are in use at Parkington Quay, Harwich. All the symbols selected are known the world over, and foreign visitors of all nationalities can "read" them.

Meat packers report that more meat was consumed in the United States in 1934 than ever before in history.

A plant in Norway produces rust-free and acid-resisting steel, having an annual capacity of between 40,000 and 50,000 metric tons.

W. N. U. 2087

#### Heated Railway Car

New Type Is Developed For Transportation Of Fruit And Vegetables

Canadian National and Canadian Pacific Railways are developing a new type heated car for transportation of fruit and vegetables, the Canadian horticultural council was told in the report of its transportation committee.

The council instructed its transportation committee to draft a resolution which would ask a portion of any federal monies voted for building of new rolling stock by the railways be used to increase the number of fruit and vegetable carriers.

Col. R. L. Wheeler, Dominion fruit commissioner, described experiments by the railways to develop a new type heated car. The model he described was charcoal heated, with a system of hot-water pipes similar to a domestic heating plant. The council had, asked the railways to consider a gas-burner heater, with inside temperatures regulated by the degree of cold outside the car.

#### Seek Oil Independence

Germany Hoping Domestic Requirements Will Soon Be Met

Amazing was the resistance offered by the Germans during the war largely because of her scientists, and now the German people are seeking through scientific means to make their country as economically independent as possible. They are increasing their efforts to find substitutes for imports. Not the least of these is petroleum, or the mineral oil from which it is produced. It is now asserted by German scientists that within a few years Germany will be independent of mineral oil imports. Petroleum is being produced synthetically from coal, and success is attending efforts to utilize brown coal—lignite—so extensively found in Germany. In the last year Germany has produced a third of the petroleum needed and she hopes that by 1938 her total domestic requirements will be met.

The Finnish statistical office reports that in the 13 main towns and cities of the republic 19,271 married women are engaged in remunerative activity; this is 18.9 per cent. of all married women there.

Glasgow, Scotland, and the Isle of Man are to be connected by an air service.

#### Proves That Earth Wobbles

Stars Once Seen Now Do Not Rise Above Horizon

When the astronomers of ancient Greece grouped the stars and found names for them they listed constellations that can now longer be seen from Greece. In this way they supplied Sir James Jeans, the British astronomer, with a proof of a scientific fact discovered long years after they departed this terrestrial planet. Among the constellations named by the men of Greece 2,500 years ago are some which, although visible then, cannot be seen in Greece to-day because they never rise above the horizon. The wobble, as it is called, is a movement of the spinning earth in which its axis makes a small circle once in every 26,000 years; in other words, each pole describes a circular path in the heavens at the speed of about a foot a year. This slow movement is caused by the pull of the sun and moon on the bulging equatorial part of the globe.

A Speedy Camera  
Photographing simultaneously moving machinery and a clock dial, a camera recently invented in Europe takes up to 2,500 pictures a second and detects errors.

## CONSCRIPTION OF CASH IN GERMANY IS A NEW ORDER

Berlin.—Reichsfuehrer Adolf Hitler conscripted Germany's cash to buy raw materials and consolidated debts.

In one of the shortest laws passed by the Nazi government, the hunt for liquid assets was begun and will spare none upon whom the reichsminister of finance wishes to call for money.

Lutz Schwerin-Von Krosigk, the finance chief, was given wide powers to secure funds through credits, and is limited only by the fuhrer's personal estimate of the extent to which he should strip liquid assets from those who have them.

Von Krosigk may go to banks and demand loans. He may go to private firms and individuals and insist upon their parting with such cash reserves as are not absolutely essential to their well-being.

Financial circles expect the government to float a 1,000,000,000 mark (about \$400,000,000) loan some time during the year in a desperate attempt to keep the public work recovery program going.

It was considered most likely banks and insurance companies would be asked to subscribe with public participation demanded on patriotic ground, possibly through methods resembling war saving stamps and baby bond sales.

Every German is compelled on pain of severe punishment to register with the reichsbank a list of all foreign holdings. Until the present, the reichsbank usually has notified owners of foreign credits it was not necessary to file them. The next few weeks, the financial observers say, may tell a different story.

Hitler's mandatory order to the finance minister virtually says: "Find money where you can—I shall back you up."

## Plenty Of War Supplies

Italy Well Prepared For Trouble In Ethiopia

Rome.—Italy's supreme defence council promised the nation a wealth of war supplies will not run dry as 4,000 Italian troops steamed across the Mediterranean to Africa in consequence of Italo-Ethiopian tension. The council, over which Benito Mussolini himself presided, concluded its fifth session in recent days with the statement:

"Italy can rest assured the council has done its duty in preparing in all time those indispensable measures so that an eventual warlike effort can be carried out in conditions which will assure victory."

## Depletion Of Waterfowl

Fear Expressed Of Danger Of Extinction Of Ducks

Winnipeg.—Federal authorities are concerned over depletion of waterfowl and fear extermination of some species of ducks, according to a report submitted to the Manitoba legislature by Hon. J. S. McQuinn, minister of natural resources.

Solution of the duck depletion problem rests primarily on measures taken in the United States, where the birds are fired upon over a much greater area in their migratory flight between the international border and the marshes of the Gulf of Mexico and Atlantic coasts, the report said.

## Obligated To Cancel Visit

Hamilton, Bermuda.—Sir Austley Cubitt, governor of Bermuda, received confirmation from the Duke of Gloucester he would have to cancel his visit to Bermuda owing to delay caused in the schedule of H.M. A.S. Australia when she rushed to the aid of the schooner Seth Parker off Haiti.

## Relief Funds

Hamilton, Ont.—The city treasury has received \$3,451 as a result of exposure last week of two cases of relief fraud, Mayor H. E. Wilton announced. One family returned \$1,000 and another \$451. Both had substantial amounts left in their bank accounts after the city had been reimbursed it was reported.

## Trade Level Maintained

Geneva.—Volume of world trade maintained its level in 1934 compared with 1933, according to information supplied by the League of Nations secretariat. In 1932 it had fallen to 74 per cent. of the 1929 figure, but it increased slightly in 1933.

W. N. U. 2087

## Cockroach Soup

Reprisals Follow Quickly When Misdeed Committed In Russia Archangel, U.S.S.R.—Five persons, including M. Sosnin, former secretary of the Communist party committee at Isakogorsky harbor, were sentenced to prison for the part they played in the "cockroach banquet" of which they were alleged to have compelled several restaurant employees to partake.

The five men were accused of forcing the personnel of the eating place to eat soup containing the insects as a disciplinary measure after a customer complained of finding a cockroach in his food.

Immediately after the incident, Sosnin was removed from his political post. The court sentenced him to three years' imprisonment.

The others were sentenced to shorter terms.

## Uniformity Of Wages

Premier Bracken Of Manitoba Would Do Away With Unfair Competition

Winnipeg.—Legislation directed at uniformity of wage and working hours throughout Quebec, Ontario and Manitoba is likely to be introduced in the Manitoba legislature by Premier John Bracken at the present session.

Unfair industrial competition aided by inconsistency of provincial labor laws is believed to be the object of the Bracken proposals. The new legislation would, it is learned, make it impossible for industries of one province to produce their goods more cheaply than possible in a neighboring province because of longer working hours and lower wage scales.

## Provinces Have Not Submitted Relief Plans

Until Statements Are Received Ottawa Cannot Take Action

Ottawa.—Until provinces have submitted "concrete plans" for their relief operations after the current fiscal year, and stated their requirements from the Dominion government, it could make no definite statement to the house with respect to government policy, Hon. W. A. Gordon, minister of labor, told the House of Commons. The house was in consideration of supply considering an item in labor department estimates.

No such information or plans had as yet been submitted by any of the provinces, Mr. Gordon said.

## Wolves Becoming Menace

Great Damage In Prince Albert National Park Reported

Ottawa.—Damage caused by wild animals in Prince Albert National Park, Sask., was called to the attention of the government in the House of Commons by A. F. Totzke (Liberal, Humboldt). Hon. T. G. Murphy, minister of the interior, said he was waiting for a report from park officials and would make a statement to the house later.

Mr. Totzke said timber wolves were becoming so numerous they were forming into packs and doing great damage to trap lines and slaughtering wild animals in district adjacent to the park.

## Mounties As Coast Guard

Ottawa.—Major-General J. H. MacBrien, commissioner of the Royal Canadian Mounted Police, told the Canadian Geographical Society it would "undoubtedly" be to the nation's advantage if the marine section of the force were developed into a regular coast guard service. He revealed the marine service of the force had given assistance to 76 vessels between April, 1932, and the present.

## Study B.N.A. Act

Ottawa.—Three new members were added to the special committee of the House of Commons studying methods of amending the British North America Act. They are Hon. Peter Veniot (Lib., Gloucester), J. S. Stewart (Cons., Lethbridge), and Henri Bourassa (Ind., Labelle). Prime Minister R. B. Bennett moved for the appointments at the opening of the house.

## Plea For Lower Tariff

Ottawa.—Colin Campbell (Lib., Frontenac-Addington) made a plea in the House of Commons for lower tariffs on mining machinery. He said in his resolution that the mining industry in recent years has been subjected to increasing taxation and had only been able to keep going because of the ingenuity of engineers whose researches had produced less costly methods of operation.

## Likely To Retain Post

Judge Taylor May Remain Head Of Pension Commission

Ottawa.—Retention of Mr. Justice Fawcett Taylor at the head of the Canadian pension commission when his period of service as temporary chairman expires some months hence is said to be contemplated by the government.

He was appointed last July for a period of one year, and for the specific purpose of clearing up the so-called "marriage cases." Among his duties was that of making a complete report to the government on operation of pensions machinery.

The bill enabling the government to increase the number of commissioners by appointment of temporary members to the board has now passed the senate. The expectation is the government will name four to hold office until the present congress is cleared away.

## A NATION WIDE BUILDING PLAN IS SUGGESTED

Toronto.—Erection of a Dominion government mortgage loan corporation to provide credit for a huge, nation-wide construction program was advocated by Hon. H. H. Stevens, former federal minister of trade and commerce, in an address before the Ontario Retail Lumber Dealers' Association.

The body would have power to sell its bonds in Canada and if necessary have power to guarantee them.

"This government-controlled body would do for the people of the country what those at present in private control are failing to do, that is, provide decent housing for the people," Mr. Stevens said.

When he spoke in Toronto almost a year ago and pointed out the chaos into which business had drifted he had a definite plan, Mr. Stevens told his audience, and subsequent studies have confirmed the possibility of such a plan.

It is three-fold. He suggested appointment of a federal commission of industry and commerce, placing farmers and other primary producers in a position which would give them a larger measure of control in marketing of their products and a national construction program.

Reason a start is not made on the construction project is because the credit of the country is in the control of a very small number of men and is not actually available except at costs that are too high or on conditions that are too onerous, Mr. Stevens said.

He recalled his speech in the same place a little more than a year ago when he declared there were "cankers" eating at the economic life of the Dominion. That gave rise to the price spreads investigation and, he said, the whole country has been shocked at the things brought to its attention.

"I started this movement. I am determined to see it through," he declared amid applause.

## FRANCE BIDS FOR ATLANTIC AIR SUPREMACY

An intensive race is on between various nations to determine which will be the first to establish commercial air service across the Atlantic. France has taken the lead with her huge new air liner, christened the *Léon de Valseau* Paris. The ship recently completed its maiden flight in a manner which has given the French high hopes of being the first nation to span the Atlantic with regular commercial air service. At the same time Great Britain and the United States are experimenting with super-planes of different types and both countries expect to have planes ready in the near future. The new French air liner is capable of carrying 70 passengers in comfort, is propelled by six motors of 850 horsepower each and is 104 feet long. It has a cruising speed of 145 miles an hour and is designed to make the transatlantic flight in less than 20 hours. Above is a picture of the giant French plane, while inset is Baron Henri de la Graige, French aviation commissioner, who is now in the United States studying commercial aviation on this side of the water.

## TO CHANGE LAW

Hon. T. B. McQuesten, Minister of Highways for Ontario, who will introduce important amendments to the Highways Traffic Act in the Legislature.

The amendments will be made with a view to reducing the accident toll on city streets and highways.

Foreign Commissioner Maxim Litvinoff instructed the Soviet ambassadors at London and Paris to inform the governments there that regional pacts such as the proposed eastern Locarno agreement are considered by the U.S.S.R. as absolutely necessary for the preservation of peace in Europe.

This stipulation in the Russian attitude struck directly at Germany, which the Soviets have been accusing of having ambitions of military aggression against Russia.

General European Peace

Soviet Russia Wants Peace Pact Carried Out In Full

Moscow.—Soviet Russia, notified Great Britain and France it is in agreement with the London proposals for a general European peace pact on condition they are carried out in full.

Foreign Commissioner Maxim Litvinoff instructed the Soviet ambassadors at London and Paris to inform the governments there that regional pacts such as the proposed eastern Locarno agreement are considered by the U.S.S.R. as absolutely necessary for the preservation of peace in Europe.

This stipulation in the Russian attitude struck directly at Germany, which the Soviets have been accusing of having ambitions of military aggression against Russia.

Gasoline Inquiry

Tariff Board May Hold Session In Regina

Ottawa.—The tariff board may open its inquiry into gasoline tariffs in Regina. This would be an innovation for the board as at present constituted has never held hearings outside Ottawa.

The chief complaint that gasoline prices are too high, because of the tariff, came from the west, and the point under consideration is whether it would be cheaper to bring witnesses here or for the board to go to the prairies. The board is busily preparing its report for the budget, which will likely be down in three weeks. When it has completed this it will start almost immediately on gasoline probe, it is understood.

To Boost Alberta Coal

Edmonton.—Steps to organize a Canadian coal committee with a view to encouraging wider market and greater consumption of this Alberta product were taken at a meeting of representatives of boards of trade and other organizations in the province.

Although he was willing to support the Bradette motion, the Saskatchewan Liberal protested against lawyers, doctors and school teachers attempting to dictate to farmers on agricultural subjects. There was one way to make the farm more attractive—through education and "you might as well throw your money in the lake" as to select several hundred boys indiscriminately, buy them farms, stock and machinery and expect them to make good.

Sir George Perley, acting prime minister, offered no objections to the Bradette motion going to the agricultural committee of the house for further study.

Under a land settlement scheme, said Mr. Vallance, candidates must be hand-picked. It would be useless to pay every applicant \$1,000 over five years—as suggested by the Bradette motion—and expect him to make good. In the same way as immigration, there must be discrimination and educational means to make the farm more attractive.

"I hope I never see and Canada never sees a contented peasantry in this country," exclaimed Mr. Vallance. Only in countries where there was no education for the masses were there contented peasantry. In a country like Canada there was bound to be rural migration as long as people did not realize the advantages of farm life.

## Not Taking Part

Corporation In Scotland Cannot Afford To Mark Jubilee

Greenock, Scotland.—Not without a struggle, the corporation of Greenock on the Clyde resolved by a vote of 12-10 not to take part in the celebrations of the silver jubilee of the king's accession.

The resolution explained expenditures would not be fitting "because of the unemployment in the town." Bailie Mrs. McLeod described the king as "a wee, nice man" who reminded her of her father.

Bailie Scott vigorously objected to "trailling the unemployed into the question." The action would make Greenock the last town where anyone would think of establishing a new industry, he asserted.

## Paid With Their Lives

Chinese Rebels Executed For Murder Of Missionaries

Shanghai.—Four more Communist rebels have paid with their lives for the murder of the United States missionaries, Mr. and Mrs. J. C. Stam, in southern Anhwei province last December; the foreign office here revealed.

Anhui province authorities, it was announced, captured the quartette and executed them. On Dec. 20, two weeks after the tragedy, four others were reported put to death, and the alleged leader of the Communist hordes that destroyed the Stam's mission and beheaded the couple was later reported killed in battle.

## Fishing Schooner Race

Trans-Atlantic Contest Between Canada And American Boats Suggested

Lunenburg, N.S.—A trans-Atlantic fishing schooner race between the Canadian champion *Bluenose* of Lunenburg, N.S., and the *Gertrude L. Thorbad*, pride of the Gloucester, Mass., fleet, now appears to be a certainty.

E. Fenwick Zwicker, local business man, made public a series of cablegrams exchanged during the past few days with the Royal Ocean Racing Club of England, in which the latter said it was "ready to go."

This office he held until 1925, when he became minister of agriculture, but following the general election of 1932 he was made a minister without portfolio.

Born in Upton, Que., in 1861, Mr. Prefontaine came to Manitoba in 1880, where he settled in St. Agatha and then in St. Pierre. He first entered the legislature in 1903, and with the exception of two defeats, suffered in campaigns of 1914 and 1920, had represented Carillon constituency continually.

ENTER PROTEST AGAINST SWIVEL CHAIR FARMERS

Ottawa.—A protest against "swivel-chair farmers" handing out advice to men who had spent years behind the plow was made in the House of Commons by John Vallance (Liberal, South Battleford), who for 29 years has been a wheat farmer in Saskatchewan.

Joseph Bradette (Liberal, North Temiskaming), a lawyer and merchant at Coburn, Ont., started the protests by sponsoring a motion to promote a land settlement scheme, spending \$20,000,000 over a period of five years to purchase farms for young men who have been drifting to the cities. He would give preference to boys born on the farms and leave out industrial workers and immigrants.

Although he was willing to support the Bradette motion, the Saskatchewan Liberal protested against lawyers, doctors and school teachers attempting to dictate to farmers on agricultural subjects. There was one way to make the farm more attractive—through education and "you might as well throw your money in the lake" as to select several hundred boys indiscriminately, buy them farms, stock and machinery and expect them to make good.

Sir George Perley, acting prime minister, offered no objections to the Bradette motion going to the agricultural committee of the house for further study.

Under a land settlement scheme, said Mr. Vallance, candidates must be hand-picked. It would be useless to pay every applicant \$1,000 over five years—as suggested by the Bradette motion—and expect him to make good. In the same way as immigration, there must be discrimination and educational means to make the farm more attractive.

"I hope I never see and Canada never sees a contented peasantry in this country," exclaimed Mr. Vallance. Only in countries where there was no education for the masses were there contented peasantry. In a country like Canada there was bound to be rural migration as long as people did not realize the advantages of farm life.

Relief Loans

14,715 Single Men Working In Federal Relief Camps

Ottawa.—At the end of January, 14,715 single unemployed men were working in relief camps operated by the department of national defence, according to a return tabled in the House of Commons. They were distributed among 102 camps.

The total for Nova Scotia was 906; New Brunswick, 1,016; Quebec, 2,564; Ontario, 5,977; Manitoba, 1,567; Saskatchewan, 1,605; Alberta, 2,881; British Columbia, 6,850.

Salvage Plan

New York.—Simon Lake, the submarine designer and salvage engineer, hopes to begin working next week the cargo from the British ship *Huascar*, sunk in the East river in 1780, and see whether \$4,000,000 in gold is in it.

## PUBLIC CONTROL OF RADIO FAVORED BY THE PREMIER

Ottawa.—While he favored public ownership of radio, Premier R. B. Bennett told the House of Commons, he recognized a large body of public opinion held contrary views. Earlier he had told Hon. W. D. Euler (Liberal, Waterloo, North), that as far as he knew there was nothing to warrant the newspaper report the radio commission was to be abolished and broadcasting abandoned to private enterprise.

During discussion of provisions of the unemployment insurance bill relating to appointment of a commission the prime minister again referred to radio broadcasting.

"Dispute the fact," Mr. Bennett said, "that the government selected a commission and left it to the working out of the public ownership of radio, the fact is and a very evident fact too, that the government is blamed for its administration and political capital is made of the manner in which it is administered. Now all that a government can do is to endeavor to secure a commission that will administer any public utility or any public act subject to the provisions of the act. When it fails to do so, it supplies, shall I say, aid and succor and support to those who are opposed to what has been so often designated as public ownership."

## Hon. A. A. Prefontaine Dead

Was Member Of Manitoba Legislature Almost Continuously Since 1905

Winnipeg.—Hon. Albert A. Prefontaine, a member of the Manitoba Legislative Assembly since 1905, died in hospital here after a protracted illness. He was 74.

The Bracken government was first elected in 1922, and in the following year Mr. Prefontaine switched his colors from the Conservative party to the Progressive, and was appointed provincial secretary, railway commissioner and lands commissioner.

This office he held until 1925, when he became minister of agriculture, but following the general election of 1932 he was made a minister without portfolio.

Born in Upton, Que., in 1861, Mr. Prefontaine came to Manitoba in 1880, where he settled in St. Agatha and then in St. Pierre. He first entered the legislature in 1903, and with the exception of two defeats, suffered in campaigns of 1914 and 1920, had represented Carillon constituency continually.

Coal From U.S.

Says Fifty Per Cent. Of Coal Imported Comes From Unorganized Fields

Ottawa.—Believing more than 50 per cent. of the coal imported into Canada comes from unorganized fields, Isaac D. Macdougall, conservative member of the House of Commons from Inverness, would prohibit its importation from any country "where employees are denied the right of collective bargaining."

If the parliament of Canada was competent to legislate for unemployment insurance and hours of work, Mr. Macdougall said, it should be competent to pass an act whereby "scab coal" would be kept out while in Nova Scotia and western Canadian mines were capable of producing all the coal needed in Canada.

**Local and General Items**

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, local, etc. Please items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Mrs. R. K. Lillie was a visitor to Lethbridge last week end.

Joe DeGroote has been confined to his home at Chapman Camp through illness.

J. R. Sjolbeck, C.P.R. roadmaster, has returned from a three-months visit to his home in Sweden.

John Watson, Edmonton police detective, died Monday at the age of 60. He was formerly town constable at Macleod.

Rev. George G. Webber, general secretary of the Lord's Day Alliance will address a meeting at the United church tonight.

It has definitely been decided to run a special train from the Crows' Nest Pass to Calgary for the big Boy Scouts' jamboree.

The city of Drumheller has purchased a new dump wagon at a cost of \$155. They're not throwing away ratepayers' money at Drumheller.

Hockey tomorrow night at the local arena—Pincher Creek juniors versus the Blairmore high school team. The game starts promptly at 8 o'clock.

An amendment to the town's by-laws is suggested that will make it perfectly o.k. for the union secretary and the Tim Buck boulevard hose manager to run the council.

Rev. G. Harrison Villett, for the past five years pastor of McDougall United church at Edmonton, and previously at Pincher Creek, has accepted a call to the Canadian Memorial church, Vancouver.

General regret is expressed at Mr. O. M. Olson's decision to resign the post of chairman and member of the local school board, with which he has served so efficiently for the past couple of years. In all likelihood, the vacancy will be filled by acclamation.

Kimberley Dynamiters held their second consecutive West Kootenay hockey championship as the result of a 4-2 victory over Trail Smokeaters at Trail on Saturday night. It was the Dynamiters' third straight win in the three-out-of-five-game series.

The former W. E. Lord Company, of Red Deer, have branched out into the automobile business, handling General Motors' products. A few years ago, their general store business at Red Deer was sold to the T. Eaton Co.

The Kimberley Dynamiters defeated the Vancouver Cubs at the Vancouver arena last night in the opener of the three-out-of-five-game series play-down 3 to 0. The winners of this series will represent British Columbia in the Allan Cup play-downs.

A most delightful concert was given at the United church auditorium last night by Miss Knapman's group. The programme included vocal selections by Miss Jean Upton and Miss Lena Fraser, violin selections by George Kerr, a play entitled "The Dearest Thing in Boots," and other interesting items.

Announcement is made of the birth of a son to Mr. and Mrs. Eric Hounquist at Kimberley, B.C., on Tuesday, February the 26th. At Vancouver last night, in honor of Eric's prowess as a goalie, coupled with his success as above stated, Eric was presented with a miniature bassinet by his team mates.

Enoch Williams gave a very extensive report on his trip to Moscow before a large audience in the Columbus hall on Sunday night. Unlike many others who have acted in a similar capacity, Mr. Williams went over there and saw things worth while describing to a Canadian audience.

Clothes make the man—and reveal how the woman is made.

Mrs. Harry W. Tucker passed away at Pincher Creek on February the 18th.

Remove "alka seltzer" from the radio, and a sudden improvement in radio's health would be noticed.

James A. Isbester, Calgary branch manager of the Sun Life Assurance Co., paid a visit to Blairmore last week.

Guess you've heard of the Scotchman who left the roof off one room in his new house so he could enjoy a free shower bath.

Thomas White, aged 71, passed away at Truro, N.S., on February the 18th. Mrs. Harold Stephens, of McGrath, is a daughter.

Old times of the Lundbreck-Cowley district will hold their fifth annual dance in the Lundbreck hall on the night of Friday, March the 15th.

The Bellevue school district balance sheet at the end of December gave a very creditable showing, with upwards of ten thousand dollars to its credit in the bank.

The many friends of Mrs. William Harrison will regret to learn that she is quite seriously ill. She is drawing close to her seventy-ninth birthday, and up to quite recently had enjoyed practically all her faculties.

EYES EXAMINED at the Blairmore Pharmacy, Saturday afternoon, March 9th, E. J. ANDERSON, B.Sc., of Calgary, in attendance. Free demonstration of the new Amplified Acousticon Aid to Hearing.

Hairpulling, biting, swearing and boxing formed part of the entertainment when two young ladies fought over a young man here last week. The young man, who acted as referee, claims that the winner won.

At a wedding the bride was Miss Jane Helder and the bridegroom Mr. Newton Lord. The groom, however, was very angry when he saw in the newspaper an account of their wedding, headed in the usual way: "Lord—Helper."
